## SHOULD MY PET GO TO DAYCARE?

Doggie daycare plays a significant role in the lives of both dogs and their owners. It serves as a valuable service for a variety of reasons, catering to the well-being of dogs and providing convenience for their owners.

**Socialization:** Dogs are social animals that thrive on interaction with other dogs and people. Doggie daycare provides a controlled and supervised environment where dogs can interact with their peers, helping them develop social skills, improve their behavior, and reduce the likelihood of developing anxiety or aggression issues.

**Physical Exercise:** Many dog owners have busy schedules that prevent them from giving their dogs the necessary amount of exercise. Doggie daycare offers a space where dogs can engage in physical activities, play games, and stay active, promoting their overall health and preventing obesity-related problems.

**Mental Stimulation:** Dogs need mental stimulation to stay engaged and avoid boredom-related behaviors like chewing, digging, or excessive barking. At daycare, dogs are exposed to new environments, toys, and activities that keep their minds active and prevent them from becoming frustrated or restless.

**Relief from Loneliness:** Dogs are pack animals and often suffer from separation anxiety when left alone for extended periods. Doggie daycare provides them with companionship and reduces feelings of loneliness, helping to alleviate stress and anxiety.

## CAN MY PET ATTEND DAYCARE?

- Pets must be 12 weeks or older
- Male dogs must be altered by 6 months of age
- All dogs must pass a daycare assessment prior to their first day
- Vaccine requirements: Rabies, DAPP, Bordetella, current fecal – every six months

A Daycare assessment appointment will determine if your pet is ready to mingle with the rest of their pawls.

## HOW DOES DAYCARE WORK?

We pride ourselves in our first-class daycare experience. Pets under our care will enjoy large play areas where they can socialize with other pets. We will match your pet to a specific play area depending on their size and play style. All play areas come equipped with toys, playground equipment, and a dedicated, trained camp counselor who are on duty during all play times.
